## Republicans Have the Benefit of the Eastern Betting -- Good Weather For Election-Heavy Vote Expected in Greater New York.

### (ASSOCIATED PRESS CASLEGRAMS)

NEW YORK, Nov. 8.—Betting is lively on the election, \$200,coo having been placed at odds of six to one in favor of Roosevelt.

GOOD ELECTION WEATHER.

WASHINGTON, Nov. 8.-The weather forecast for election day is generally fair with slight showers in New England and New York.

### ELECTION FORECASTS.

NEW YORK, Nov. 8 .- Gov. Odell says that Parker's plurality in Greater New York must exceed one hundred and forty thousand to carry the State. Frank Higgins, the Republican nominee for Governor, says the State will give Roosevelt 100,000 plurality. Murphy, the leader of Tammany Hall, says Greater New York will poll the largest Democratic vote in its history.

### PRESIDENT GOES HOME.

WASHINGTON, Nov. 8.—President Roosevelt left for Oyster Bay yesterday to cast his vote.

### ADDRESS OF WARNI TO REPUBLICAN WATCHERS

To the Republican watchers and clerks of the Fourth District:

Reliable information is received to the effect that a certain element of the opposition proposes in its desperation to resort to fraud and violence in effort to defeat us at the polls today.

This element includes the ex-convicts and other roughs who have been so active during the past few days on behalf of the Democratic party and some of its auxiliaries.

These worthies have planned to introduce here the slum tactics by using repeaters and trying various sorts of illegal voting. They threaten to make disturbances at a number of presincts at the closing of the polls, hoping to capture ballot boxes or create confusion that will result in injury to our party.

Officials, watchers and clerks, be vigilant and fearless.

The Republican party has always stood for a free ballot and a fair count. With these today we shall carry the Fourth District for our entire ticket by a larger majority than ever before.

LORRIN ANDREWS.

Chairman Fourth District Representative Committee.

when it was known that Stephen Umauma, up to a day or two ago a staunch Democrat and one of the speakers who daily mounted the political rostrum at Bethel and King streets on behalf of Iaukea, Parker and any other Demoerat on local or mainland tickets, had deserted to his old friends the Home Rulers. In the same issue of the Home Rule paper that the article attacking Iaukea was printed, was an affidavit from Umauma in which he made an assault upon Democratic principles and his former political friends. Mr. Nakookoo also came out with an affidavit against laukea and others and the resuit is that Mr. Kinney has also prepared warrants for their arrest. "In case Notley fails to retract the other two warrants will become operative today," said Mr. Kinney.

Upon the outbreak of hostilities, the offer was accepted and Dr. McGee and eight associates immediately repaired to Japan. Their time is now up and they are returning home.

Upon their arrival at Japan they were received with almost a royal wel-

It may be said in passing that the hospital of Hiroshima is the great recelving station of all the Japanese wounded. Dr. McGee and her associates had no difficulty, whatever in learning enough of the Japanese language on the voyage out to enable them to attend to their duties.

Dr. McGee was appointed to the highest grade in the Japanese Red Cross with the rank of a military officer and she was given every facility to become thoroughly acquainted with every branch of the department. She went on the hospital ships over to Dalny and up the Yalu, being the only woman of the Red Cross so far to set foot in Manchurla.

## SENSATION AND SEQUEL

The first dispatches regarding the fire at the American-Hawaiian steamship wharves were as follows:

NEW YORK, Oct. 28.—Two piers, four large steamships and two lighters were destroyed by fire early this morning at the foot of Forty-second street Brooklyn. The fire was still burning at 3 o'clock, and the damage is roughly estimated at \$3,000,000.

One of the destroyed piers, No. 6, which cost \$500,000, burned to the water's edge, and was the largest pier in New York harbor. The ships were all laden and the piers were filled with valuable merchandise. Part of the loss was 30,000 bales of cotton, valued at \$50 a bale. There were many narrow escapes from the three steamers and lighters and at this hour it is reported several lives were lost.

At 1:30 a. m. the big freight steamers American, Nebraskan and Arizonan, which ply between this port and the Hawaiian islands, and the freighter City of Palermo were on fire, tremendous flames that rolled up from them illuminated the whole southern sky and attracted attention all over Manhattan. The barges Victor and Adelaide, laden with cotton were destroyed. They were lying at Pier No.

one of the two destroyed. The fire started on board the barge Victor and spread rapidly until the entire barge was ablaze and the flames had communicated to the pier, stored to its capacity with cotton and general merchandise.

The steamers Nebraskan, American, and Arizonan were tied up at the pier. The fire spread so rapidly that the steamers were in flames before the crews could be aroused, and escape by the pier was cut off. All on board the steamers had to jump overboard to save their lives. The barge Victor had been cut adrift from the pier to try and save the structure. The flaming barge drifted over to the other side, alongside the Adelaide, and in a few moments the Adelaide was afire and the flames had communicated to Pier 6, also freighted with cotton and general merchandise.

Tied up to this pier was the large transatlantic liner City of Palermo, running between New York and Mediterranean ports and loaded with a general cargo, including a quantity of cotton. The flames from the pier communicated to the helpless vessel and her crew had to abandon her and take to the water to save their lives.

At 3 o'clock this morning all that remained of the piers was charred ends of piles sticking above the water. The steamers Nebraskan, American and Arizonan were burned to the water's edge and the City of Palermo looked like a total loss. The firemen were practically helpless against the flames, as both piers were ablaze from shore to the extreme water end.

It was the third fire on the piers in two weeks. The firemen could not say whether they were incendiary. Where such a large quantity of cotton is stored there is always danger of spontaneous combustion. The last fire on the piers occurred two days ago and resulted in a damage of \$50,000.

## RAIL CAR

### Oldsmobile Now Used On Oahu Railway Line.

The first railway motor inspection car

of the automobile type to be seen in Hawaii is now in practical use on the line of the Oahu Railway Company. It is an Oldsmobile motor, looking much like the street auto, with the exception the wheels are flanged for exclusive running on rails. It is shaped like the touring cars, not having a curved dashboard seen on the street runabouts. The seats are arranged dos-a-dos. On the recent trial of the motor under

the direction of Captain Jargstroff of the Von Hamm-Young garage the car averaged about twenty-seven miles an hour. The run was made clear through to Waialua. The car took the curves beautifully, and showed throughout that it is a valuable acquisition to Superintendent Dennison's rolling stock equip-

## CHANGE OF POLLING

Voters in the Tenth Precinct of the Fourth District will find, by an official notice in this issue, that their polling booth has been changed. Instead of being at the corner of King and Alexander streets as originally proclaimed, the booth will be placed at the corner of Young and Alexander streets\_ Secretary Atkinson explains the reason for the change as being risk and danger to voters involved in the first location of the booth. That was at the Rapid Transit transfer station.

THREE PHYSICIANS TRIED FOR FOUR YEARS IN VAIN.

A Woman's Almost Miraculous Recovery From a Wasting Disease Brings Hope to the Hopeless.

For four years Mrs. Clara O. Smith, of No. 55 Bowers street, Nashua, N. H., had been growing paler and thinner and, according to the verdict of her doctors, had but a few weeks of life left. Then an astonishing transformation occurred and the woman, who had been so weak that she could not cross the floor, dismissed her nurse, resumed her household work, and gradually took on flesh until shereached a weight of 188 pounds. To a. reporter who visited her home to learn: the circumstances, Mrs. Smith gave the following details:

"My troubles began nearly four yearsago with hemorrhages of the bowels. Week in and week out these were repeated and there seemed no way of stopping them. I became white as snow. My heart beat so that'l could not go up-stairs, and later not/even the length of the floor. My head kept throbbing all the time just below my ears, and my limbs swelled and would hardly carry my body. Finally I became so weak that I had to lie down all the time.

"My physicians regarded my case 28 incurable. I was told that there was no possible chance for me and even that I could not last for more than a few weeks. It was then in October of last year, that my son-in-law saw an advertisement of Dr. Williams' Pink Pills and got some for me. They brought me the first relief I had experienced in all my sickness. I could see a change for the better within the first week after I began to use tuem. The pain in my head stopped almost at once and has never returned since. My strength began to come back, my lips and cheeks grew red again, my flesh was restored; in fact, I am now entirely well and able to do the work of a family of three. The change is all due to Dr. Williams' Pink Pills and I know that I cannot be too grateful."

In all cases of weakness caused by lack of blood, and for all diseases springing from a perveted condition of the blood Dr. Wiliams' Pink Pills are the great remedy. Their effect is simply wonderful. They are sold by all druggists throughout the world.

## GEN. WADE DOES NOT THINK HONOLULU DEAD

Major General James F. Wade is a passenger in the United States Army Transport Thomas which is now in port on its way to San Francisco: General Wade has been in command of the Military Division of the Philippines and is on his way to succeed General Corbin as commander of the department of the East, which comprises all the Atlantic slope and the island of Porto Rico, as well as most of the Gulf and most important of the military departments. General Corbin, it will be remembered, passed through this city a few weeks ago on his way to the Philippines to take General Wade's place, so the two generals at the farthest extremes of Uncle Sam's military jurisdiction have swapped com-

General Wade was seen at the Young Hotel last night and consented to be interviewed, although he laughingly remarked that he was afraid that he couldn't say much of interest. The general is a middle-aged man with grey hair and moustache and a merry twinkle in his eye that is very comforting to a reporter after some of the glassy stares that he has received from some generals. In short the general is a man whom it is a pleasure to meet and if he was not popular in the

Philippines nobody could be. "The troops now in the Philippine Islands are merely on garrison duty,' said General Wade last night, "and the military government has been abolished except in the Moro district where there is a combination of military and civil government. General Wood, who is military governor there, other parts of the archipelago the civil authorities are in full control. The conditions in the Moro country are very different from those in other parts of the islands. It is a very difficult country to care for. It is full of jungles and the Rio Grande, which flows through it, spreads out and

creates impenetrable swamps. "There is no danger of any general trouble in the islands now. There may be local disorders but nothing of any great consequence. Many of the people are pretty wild and they have to be watched. Communication is not good through the interior. There are no good roads. One can go along the seacoast very well, but it is very difficult to travel through the inland provinces. - Something is being done in the way of building roads, but there city of Honolulu Oahu, Territory of is not much money to spend on the work. What is spent is derived from the island revenue. I cannot say that the islands are very prosperous at present, for there is not enough agriculture to give the people money to spend. The people are rather indolent and as long as they can live they don't care for much more. Then it is hard to readjust things quickly after a great change, but after affairs are settled business should pick up. From the newspapers I thought that Honolulu must be a dead town, but it doesn't look like one to me after riding around lit this afternoon.

"As for the Filipinos themselves, they are very bright to a certain limit. They are quick at learning the rudiments of mechanics. The superintendent of the government shops in Manila told me that they were very good up to a certain point but they can't seem to go any farther. They make fair sailors but you cannot trust them to keep awake-they do not assume responsibility. The constabulary has been quite successful in doing the work which it was organized for, that of handling the other natives, but with them we often have trouble from the fact that if you give a Filipino a little authority he will use it on his fellow countrymen to at least its full extent. They are often more severe to the other natives than the white officers."

Prince Kuhio, Beckley, Lane and other Republican speakers returned last night from Kalaupapa. They report very successful meetings.

## OR WILE ON MOLOKAI

### Interesting Address at the Pacific Club.

From Saturday's Advertiser.)

An elaborate luncheon was given yes terday at the Pacific Club by Dr. Chas. B. Cooper in honor of Dr. W. C. Wile of Danbury, Conn., one of Hawali's most ardent friends, after which the visitor gave an interesting talk on the impressions he had formed during his recent visit with his host to the Leper Settlement on Molokai,

The invited guests, all of whom were present except Mr. Irwin, were Governor George R. Carter, Judge Sanford B. Dole, Hon, Alex. Young, Hon, W. O. Smith, Dr. George Herbert, Dr. L. E. Cofer, U. S. M. H. S., Hon. A. S. Cleghorn, Hon. Samuel Parker, Mr. L. E. Pinkham, Mr. Mark Robinson, Hon. W. G. Irwin.

The luncheon was designed to bring Dr. Wile into closer social contact with leading men of the islands. The doctor is an after-dinner speaker of ability. and in his talk yesterday he gave his and in this this verse most impressive. WILCOME TO RECEIVE His description of the portion of the island on which the Settlement stands, and the possibilities for turning it into an arboreal Garden of Eden by making more use of the fertile soil was of particular interest.

Dr. Wile, said he had been amazed as well as instructed by what he had seen, first because of the malady of which no one really knows anything until he has had personal observation, and second because of the rugged beau. ty of Molokai. Dr. Wile had examined the condition of the people as thoroughly as the limited time of his stay permitted. He said he had found a colony on the island which was well cared for, and he did not believe there was such another place in the world where inmates were so well looked after. He found them cherished wards of the Territory, not outcasts.

But with all this Dr. Wile had found some things lacking. He had found a community living without employment. The Settlement was located on a beautiful peninsula covered with fertile soil, a place which he believed could be eventually converted into a vernal paradise. He thought that if the people had something to occupy themselves with, work for two or three hours a day, with care in the selection of a diet, something which would take their minds off their malady, the doctors would obtain better results in treatment. Some stimulant in the way of prizes for keeping up their grounds and some real good labor, which in a little time would make the place bloom like a rose would do good.

The doctor spoke in the highest derms of Superintendent McVeigh, a in his heart an affection for the people cunder his charge which makes him one In a thousand. Mr. McVeigh had the strength of character to govern well and Dr. Wile believed that, because of his kindly, though firm relations with the people in the conduct of the affairs of the Settlement, the most cordial re-Lations existed between Superintendent and people. Everything there seemed to point to humane and beneficent con-

The feature which had struck the visitor particularly was the brave doctor-Goodhue-who has nearly a thousand patients to attend to all the time What could a man do in scientific work with such a burden resting on his shoulders day and night?

There was the opportunity for the Territory of Hawali to make a reputation which would resound from one end at 50 cents per box (six boxes \$2.50) or of the world to the other, and this was to find a treatment or cure for leprosy. The opportunity was exceptional. If leprosy were a disease that swept off 10,000 people at a stroke, all nations would be up in arms to put-it down. In the entire world there are not many lepers, and the world generally looks upon the disease with horvor, but, not being epidemic in form and results, the world did not pursue it with scientific relentlessness.

The work placed upon this one doctor was too much. Dr. Goodhue is a good man, interested in his labor and the people, and it is his desire to do scientific work in their behalf. It was necessary that the government should establish an experimental hospital, the initial cost of which would not be less than \$100,000. Should such an institution be founded by the government, a great scientific work would go out of the little peninsula on the rugged island that would echo and re-echo Ahroughout the world. Under the direction of the United States Marine Hospital Service the Settlement was carried on, a work that would be for the benefit of manking the world over.

There were a few things which came under his observation which made a deep impression on him. One was his visit to the home for girls where The one who played the plane struck but was continued until Monday. him particularly. The singers hoped that God had guided his footsteps to their doors that he might mitigate the distress among

them. Another beautiful song as translated from Hawalian into English, was evidently dedicated to a parting of the soloist from his mother, his father, sister and brother, ending with an appeal to God, in His goodness and greatness, to guide some one to them who would cure them.

## Desert Lost Cause.

MAUI, Nov. 5.-Politics during the past week on Maui has been comparatively quiet. The most important event to Republicans was the desertion of the Home Rule party by Charles Kanae-holo and Solomon Kawaihoa, prominent Home Rule leaders of Wailuku.

Kanaeholo was the president of the Home Rule Wailuku precinct club and Kawaihoa has been nominated for the legislature by Home Rulers.

It seems as if the Home Rule party on Maui is permanently breaking up. It is also stated that both S. E. Kaiue and F. W. Beckley are waiting only till November 8 is past to declare them-

selves Republicans.
In joining the Republican party, Kamacholo and Kawainoa stated that there was no longer any hope of the Home Rule party accomplishing anything. OFF FOR THE WAR.

Saturday, October 29th, was an exciting day for Maui Japanese, about one hundred of them leaving for the war in the East. At Wailuku the reservists from that town were conveyed to the railroad depot by a long line of hacks. postoffices in the Territory of Hawaii.

A petition has been recently forwarded to Commissioner Pratt praying that this land be opened to homesteaders.

As there is not water available and the region is subject to frequent and long-continued droughts, it will be most difficult for homesteaders to make a living from these lands. A portion of the upper section should be allotted to persons wishing to build summer homes, as the vicinity is a most healthful one, possessing a cool, bracing climate 3000 or 4000 feet above the sea level. Near by are the summer resorts of H. A. Bald- He Leaves One Thouwin, J. B. Castle, and F. L. Stolz.

OTHER AVAILABLE LAND,

At Omopio, Kula, is another 2000 acres of government land, or rather 1600 acres exclusive of kuleanas, that will soon be opened to settlers by the land depart-ment. This land though dry will have a supply of water led on to it by a pipe coming from springs in the forest above Olinda and will be rented to people who may colonize Omopio at a moderate rate. This land is well adapted tor sisal grow ing and adjoins Haleakala Ranch lands devoted to the same product. Not only that, but the Maui Agricultural Co. or Haleakala Ranch Co., will eventually establish a sisal mill there to whose advantages all neighboring planters will

undoubtedly be welcome. This Kula land seems to be a much better proposition for homesteaders than the Makawao lands.

KINDERGARTNERS MEET.

THE MIKADO'S BIRTHDAY.

On the 3rd the Mikado's birthday was most elaborately celebrated by Maui Japanese. More preparations were made for its observance this year than ever before. On several of the plantations uniformed companies of men have been drilling for weeks past, some with tin swords on horseback as cavalry and others with wooden guns on foot as infantry. Even the young boys caught the warlike spirit and sported uniforms of blue and brown

Then in addition to the flying of numberless Japanese flags from every dwelling, large arches of greens and flags were erected at the principal gates of the various plantation camps.

At the Kahului polo grounds in the afternoon a very large crowd from all the surrounding country assembled for sports and games.

Monday evening a Hallowe'en party was held by twenty-five young people at the residence of Mr. and Mrs. D. C. Lindsay of Paia. Prince Fushimi of Japan left one thousand dollars with Consul General Miki Salto as a gift to the cause of charity in Honolulu

One-half of the amount is for the Associated Charities and one-half for Japanese charitable organizations.

The munificence of the gift is befitting the imperial donor, giving a reality to the proverbial term princely applied to such benefactions. This act of Prince Fushimi will make everybody here, from the Governor to the private who turned out in the military escort of the visitor, proud that Honolulu was the first American soil upon which he was welcomed on behalf of the

The liquid produced may be vinegar, but !f the still is not registered the law is violated.

### A SMALL BOY'S DIARY.

There is a certain nine-year-old kid in this city who is keeping a diary. The book was given him last Christmas by a relative, and his father had forgotten all about it until he accidentally found the volume the other day. Curious to see what his small son had written in it he opened the book and found that the diary had been faithfully kept. Here are a few of the entries:

"I am 9 years old to-day. Looked in the glass, but wiskers aint sprouting

### A SILLY SAYING. "It is a common but silly opin-

ion prevailing among a certain class of people that the worse a remedy tastes, smells or hurts, the more efficacious it is." So says a well-known English physician. He further adds: For example, let us consider cod liver oil. As it is extracted from the fish this oil is so offensive to the taste and smell that many cannot use it at all, no matter how badly they need it. Yet cod liver oil is one of the most valuable drugs in the world and it is the greatest pity that we have not thus far been able to free it from those peculiarities which so seriously interfere with its usefulness." • This was written years ago; the work of civilizing and redeeming it has since been triumphantly accomplished; and as a leading ingredient in the remedy called WAMPOLE'S PREPARATION the oil retains all its wonderful curative properties with no bad smell or taste whatever. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophonphites and Extracts of Malt and Wild Cherry; creating a medicine of unequaled power for the diseases most prevalent and fatal among men, women and children. There is no other remedy to compare with it. It increases the digestive power of the stomach and in Blood Impurities, Throat and Lung Troubles, Nervous Dyspepsis and Scrofulous Affections, it gives quick and certain relief and cure. Dr. G. C. Shannon, of Canada, says: "I shall continue its use with,

I am sure, great advantage to my patients and satisfaction to myself." Has all the virtues of cod liver oil; none of its faults. You may trust it fully; it cannot disappoint you. At all chemists.

### THE NATIONAL OUTLOOK.

The Republican forecasts from the East have an air of certainty such as marked those of 1872, in the Grant-Greeley campaign and those of 1900 in the last McKinley-Bryan campaign. The betting, too is heavily Republican. From the start there has been no Democratic enthusiasm for Parker and no serious business defection from Roosevelf

It is always difficult to oust the party in power while times are good or at least passably good; and rarely difficuit when times are hard. The last term of Cleveland was a disastrous one to the trade of the country and this made it the easier to defeat Bryan. Hard times this year might have saved Parker or even have nominated and elected Bryan; but thing's commercial are doing very well and the people want them to be left alone. Hence the strong probability that Roosevelt will triumph in today's poll-

### CONGRESSIONAL

Today the voters of this Territory will decide whether they want to be represented at Washington by Kuhio or Notley. It looks as if laukes had lost so many votes that he would come out in the polling a bad third. His Hawailan following is said to have gone Nurses is passing homeward through over, in the main, to the Home Rule Honolulu with her brave contingent of element; and it is the latter, rather than the Democracy, which looms dangerously in the foreground.

There is this to be said for Kuhio. His one term taught him something and every second term man gets more consideration, if he has been honest, than a first term man can have. Furthermore, Kuhio has agreed to take with him, if elected, a white secretary, forth to do, and no doubt not half is posted on Hawaiian matters and able to make an argument in the committee rooms where a Territorial Delegate finds his principal work. While the Congressional prospect at choice; and the Advertiser urges its voting readers to cast their ballots for him and to argue his claims with every man who is yet open to conviction.

### LEGISLATIVE.

The legislative ticket presents an issue of conscience as well as of party loyalty; but this ground has been so well-tilled that it is unnecessary to go over it again. Desha expected the Republican ticket would be like the Children of Israel of old passing dry shod between the divided walls of water of the Red Bea to safety beyond, while the Egyptians were swallowed up in the brine. Kubio would lead the Republicans and like Moses and his party would land safely, while their opponents would be lost.

If Notley were sent to Congress the Congressmen would send here to ascertain Notley's record while he was Collector of Customs at Hilo. He remembered when Notley, Sr., left his seat in the Legislature in despair when he heard the news concerning his son.

Mr. Desha told another story of a captain of a steamer on the great lakes in the United States. The steamer had no compass and the captain told Mr. Desha that he steered by the direction of the smoke. First, laukea was given every honor by King Kalakaua and Queen Liliuokalani. He was sent to England representing the monarchy and then attended the coronation of the Czar, but when Queen Liliuokalani was dethroned, laukez was among the very first to sign the roll of the party which overthrew her. When the Provisional Government and Republic were organized he did the same thing-followed the way the smoke blew. He was an annexationist. Then he joined the Republican party. In all cases he steered his craft as the smoke blew. When the Territory was organized and the Republican party was in authority, laukea steered his craft into the Republican haven. The day they framed their by laws he jumped to the Home Rulers. He claimed he was forced out of the Republican party by the white men. Lastly, he steered his craft, without compass, and only by the smoke on the political horizon to

the Democrats. (Laughter.) Where were Notley and laukea during the great fire of 1900. Kuhio gave the Hawaifans shelter and food, opening up his own home for them.

In conclusion Mr. Desha praised Prince Kuhlo and the Republican ticket. The latter was like a fish cooked Hawaiian style. It was good, top, bottom and sides and all through. DOUTHITT TALKS.

# VOTE IT ATKINSON'S

## Robertson to Electors.

Today's battle of the ballots is expected by the Republican party to land the majority of their ticket in the leg-

Chairman A. G. M. Robertson of the Republican Central Committee stated yesterday that a complete victory depended on the Republican voters voting the straight ticket. His opinion as to a forecast of the result of today's ballotting hinged upon the "if."

"If the Republicans will vote straight we will make a clean sweep; if they don't, we won't, that's all," said the chairman.

The chairman stated that in East Hawaii the Republicans expected Delegate Kuhio would get sixty per cent of the votes, Notley and laukea evenly dividing the balance. The whole legislative ticket in East Hawaii would be elected. In West Hawdii he believes Kuhio and Notley will run about even. Half the legislative ticket may be elected.

With the Democratic and Home Rule fusion on Maul breaking down under clashes of the two parties, Kuhio will take lead and probably win by a small majority. Rebertson expects the returns will show that a majority of the legislative ticket is elected. Kauai is safely Republican.

The chairman considers Oahu to be the vital island. He eliminates the Democrats from the contest believing it is a fight between the Republicans and Home Rulers. Should the Democrats be capable to hanging on to a fair sized number of votes in the Fifth, the Republicans will defeat the Home

The Democrats, in his opinion, will tail the procession.

### KUHIO DEFENDS **ALL HIS ACTIONS**

The Prince replied that he had not rade the statement as of himself, but that it had appeared in a newspaper, and he had quoted it.

### Is Advice of Chairman Wants People's Fearless **Expression Fairly** Recorded.

"Everything is ready for the election," said Secretary Atkinson last night. "It has been my aim to conduct all preparations according to law, and the Rules and Regulations governing elections have been closely sendied upon all points. There are many contradictory features in the law, that show its need of amendment.

"This is regarded as the most important day in the year for the Hawaiians, and it is my earnest hope that every one of our citizens will be enabled to cast his ballot according to his own wishes and without interference from outside parties. The inspectors of election seem to me to be better qualified for their duties than has been the case on some former occasions. They have been constantly seeking instructions on bate judges apart from the ordinary named courts and judges at chambers every possible point where a question law of doubt might arise, and I believe it jurisdiction on particular judges who which has been the basis of all subseis their wish, just as much as it is my preside as well in courts of law. "To-morrow is the day when we can get a fearless expression of the people's opinions, and we want it."

### **IAUKEA FORGETS** HIS PARTY AGAIN

Curtis laukea again forgot to which party he belonged at noon yesterday while he was addressing the Bethel street audience, when he shouted:

"My Fellow Home Rulers, etc-" Iaukea did not notice the error and continued his address in perfect innocence of his absentmindedness. Not so very long ago lankea addressed the inmates of the Leper Settlement as his "Fellow Republicans."

In his speech yesterday he said the Republicans had nothing to show for benefits to the islands. The County Act was a Republican measure, signed by a Republican Governor and defeated by Republicans. He claimed the Demp-

"I was a Republican before, but or account of the party not having ful "I now stand before you as a Demoone that will stand back of the Hawallan, the country' and the Queen. They charge me, while I was Collector-General of Customs, with having dene away with a quantity of optum. I deny the charge in toto. They have no proof and will find no proof. At the time when the Home Rulers charge me with having done this deed, I was not in the Custom House but was Commissioner of Public

'I hope a magistrate will adjudge Notley guilty, so that even if he is elected he will not be able to take his seat in Congress.

Election bets made yesterday were generally in favor of the Republicans. Joe Cohen bet \$50 even that Cecil Brown would be defeated.

He also laid a 2 to 1 bet that two Republican senators would be elected, and hiso offered a similar bet on the same basis with the addition that be would name the men to win.

The, bets are generally about as Yollows: Even money that Kuhlo will be elected; even money that laukea will be defeated by Notley; even money that the Legislature is Republican. Dowsett is a strong betting card, his victory appearing to be absolutely certain to those with betting instincts.

## Denounces Brown Circular.

The Good Government Club was aroused yesterday over the circulation of a printed letter against Cecil Brown which purported to have been signed by P. F. Ryan, Wm. M. Cunningham, Frank Turk and thirty-seven others.

The owners of the names mentioned denied positively having had anything to do with the circular and denounced it as a canard. The three gentlemen swore to an affidavit to this extent.

The circular was sent through the Government Club" envelopes. As the club has had no stationery of the kind yet, this was a fake on the face of it. The circular and the affidavit are as follows:

### Good Government Club Claims Hawaiians Are Not Deserting His Party.

The hopes of the Democrats in toman Kinney, who states that Roosevelt will probably be elected, and that they hope to elect Cecil Brown, as well as to win a victory for Iaukea and the Democratic ticket in general. Kinney's statement issued yesterday is as foi-

"I have admitted publicly that the chances appeared to be in favor of Roosevelt as against Parker, which admission is generally considered poor politics on my part. The admission was deliberate and to impress upon the Hawalians.

"First-That we were dealing with absolute honesty with them, and,

"Second—That there was little use for them to turn Democrats or to expect recognition from the Democratic party on the mainland if their only motive was to get in on the winning

"The Democratic Central Committee have further taken the position that the Democratic-party, even if it loses the presidential election, has ample power left to protect the Hawalian people from any injustice or abridgment of their rights if anything of that kind is attempted. The Democrats have urged the Hawaiians to come into the Democratic party and to stay with it rain or shine, and not to come in until they were ready to do so,

"The Democratic Central Committee now state it to be their conviction that they have made more progress by taking the above position, than they would in unjustifiable contention that Parker was sure of election. We have not said and do not say now that he is sure of defeat. We simply say that it looks to be in favor of Roosevelt. But if Parker is elected it will not be the first surprise of the kind that has happened in American politics.

"We further state that the arrest of Home Rule leaders for circulating gross libels against the Democrats on the eve of election has resulted in bringing great support to the Democratic party particularly among Hawaiians. The wholesale desertion by Hawaiians of the Democratic party alleged by opponents is absolutely untrue. That the contrary is the truth is sure on the Island of Oahu. The other islands have not yet been heard

"We predict the defeat of the Home

Rule party on the Island of Oahu barring perhaps two representatives in Harvey and Waller are elected, also that Cecil Brown, despite the concentrated efforts of the administration to beat him, if no one else, is a winner. The count also shows that the Democrats will elect more members from Oahu to the House of Representatives than any other party. Our last reports from Kauai snow a Democratic piui ity for Delegate, otherwise a split ticket. Molokai we claim will go Democratic for Delegate. Maul uncertain for Delegate and otherwise a split ticket between the three parties, Our information from Hawaii is that Shipman and F ank Woods are elected, and that otherwise the representative ticket will be split up with representation from all parties. ## FOR A RIOT AT WAIALUA

### Four Chinese Are Now on Trial By Jury.

(From Sunday's Advertiser)

The Waialua riot case was on trias before Judge Gear all day yesterday. Deputy Attorney-General M. F. Prosser appears for the Territory. A. S. Hum-phreys assists E. A. Douthitt as counsel for the defendants. Chun Lun, Akin. Ng In and Sam Yau are charged in the indictment with having assembled at Waialua on July 27 last, "armed with clubs, sticks, stones and cane knives, and, with turnult and violence tending to strike terror into others, joined in unlawfully, feloniously, maliciously and riotously assaulting one Wong Chuck Lung, and then and there beat, wound and otherwise illtreat him to his great danger, hurt and injury."

OTHER CRIMINAL CASES. The arraignment of Arroyo for murder was put off from time to time throughout yesterday, the latest hour being four o'clock. As no Spanish interpreter

had been obtained the case was further

continued. The motion for continuance in the Naone murder case and pleas in the cases of Lupine Gomez, Mary Manu and Akiona, for different offenses, were continued until 9:30 Monday morning. MOANA HOTEL DRINKABLES.

Judge De Bolt yesterday heard the replevin suit of Hawaiian Trust Company, Ltd., vs. A. M. Brown, High alleged was seized by defendant on June 1, 1904, while plaintiff was in the lawful possession thereof, being then the owner in rightful possession of the Moana Hotel at Waikiki.

At the time of the seizure, the complaint said, the business of the hotel in the sale of wines, liquors, etc., was es pecially profitable, as defendant well knew. Besides asking for a return of the goods, or an alternative judgment for their value, the plaintiff claimed \$5000 damages for injury to the hotel

Mr. Heitsche, manager of the Moana Hotel, called by the plaintiff testified that about the time of the seizure the bar receipts averaged \$60 a day and the condemned" lands produce profitable requirements and the customary curat the time it was interrupted by the seizure in question.

LARGE PROPERTY SUIT. Elizabeth K. Meyer of Kalae, Molokai, has brought suit in equity to cancel and set aside a written instrument against Jesse Makainai. Complainant shows that prior to Sept. 3, 1903, her aunt. Mary Auld of Honolulu, was possessed of certain pieces of land at Kalihi, Honolulu, which are described in the complaint, and that on the day just mentioned Mary Auld did, by proper deed of conveyance, convey unto complainant all of the described property. She shows further that on June 20, 1900. Mary Auld and her husband, the late William Auld, entered into an agreement in writing with the respondent. Jesse Makainai, that they would sell the same described property to him for \$50,000. This amount was to be paid within two years after the expiration of the last lease on the property. The sum of \$1000 was to be paid on execution of the agreement. During the life of the agreement Makainai was to pay to Mary Auld \$500 every year until the termination of certain leases on the property. Rentals were to be paid to William and Mary Auld and not included in the purchase price. The \$500 a year was to be credited on the pur-

chase price to Makainai. During the years 1900, 1901 and 1902 Makainai performed the conditions of the agreement, but during the years 1903 and 1004 he has utterly failed, neglected and refused to pay to Mary Auld, to the complainant, or to any other person or persons on their behalf, the \$500 a year stipulated in the agree-

Complainant prays that the agreement may be cancelled for conditions broken. that Makainai forfeit the moneys paid as the agreement provides and that she be given such other relief as the court deems equitable.

THE HARTS EJECTED. In the suit for summary possession of Oaho Railway & Land Co. vs. Lionel R. A. Hart and Halcakala Hart, the following decision has been rendered

by Judge Robinson: "This is an appeal from the District Court of Ewa. The appeal of Lionel R. A. Hart was dismissed upon motion, advancing.

dered against him by default. As regards the defendant, Haleakala Hart; I find that she is in possession of the premises in controversy, having taken possession as tenant from month to month under H. M. von Holf, executor of the estate of Frank Brown, deceased; that upon the landlord's interest being sold by von Holt to the plaintiff corporation she became tenant at will of the plaintiff, and that the statutory notice to vacate has been given her by the plaintiff, and, therefore, find for the plaintiff for a restitution of the property with costs."

for rent brought by Otto S. Meyer and Harvey R. Hitchcock against the Kamalo Sugar Co., Ltd., defendant, and Arthur Mouritz, garnishee, made an order discharging the garnishee. It appeared to the court "that at the time of service of court "that at the time of service of ser

of said summons in said action upon said garnishee, the said A. Mouritz had not nor has he now in his possession or control any money or property be-longing to the Kamalo Sugar Co., Ltd., defendant above named, and was not and is not now indebted to said defendant, and that said A. Mouritz, garnishee, is entitled to be discharged." Geo. A. Davis appeared for plaintiffs, and J. ightfoot and Ballou and Marx for

defendants. The suit was brought with the object attaching for payment of rent claimed, the purchase price of the Mapulehu land bought by Dr. Mouritz at the as-signee's sale of the Kamalo Sugar Co.'s property.

"DEAD HORSE."

Execution for \$496.90 in the suit\_of John Ena vs. Honolulu Investment Co., Ltd., is returned as unsatisfied, due and diligent search for any personal or real property which the defendant might have within the First Judicial Circuit fining 11s against 9s 9d and 8s 6d rehaving resulted in the finding of nothing. COURT NOTES.

Judge Robinson denied the motion in the ejectment suit of Solomon Kahawaii year. vs. D. Kukea and Ku to quash the alias summons issued to Ku.

by Judge Robinson against defendant Sheriff, for a quantity of wines and in the assumosit suit of John Charles liquors valued at \$1500, which it was Johnston vs. W. C. Achi, awarding the plaintiff \$1207.55 damages and his costs taxed at \$61.93.

Another stipulation in the case of Bierce vs. Hutchins et al., relative to the Kona plantation, extends the time to answer until November 11.

### A MAUI OSSERVER HAS A WORD WITH F. C. ATHERTON

Haiku, Maui, Nov. 4, 1904. Editor Advertiser: I have been much interested in reading the letter of Mr. F. C. Atherton on small farming in ditch and A. M. Brown for defendant. Kula and in your editorial reply to same. On the conclusion of plaintiff's case I most sincerely agree with you that just before noon, Mr. Middleditch stated our Islands here are full of latent possibilities in the way of profitable agriwhich he would argue after recess, culture, and only need such energy, push, These were in effect that less title than and skill as can be found on the mainownership had been shown by plaintiff, land to make clear the advantages that and that the goods mentioned in the complaint had not been identified as has been little necessity and no system. those covered by the mortgage held by atic effort on the part of capable farmers to get out of the soil on these Islands what is certainly in it, except by the hotel as a whole was taking in about and in some cases heavy returns of tallment of refined at this season of the \$180 a day. The presence of Admiral sugar. Certain localities have, however, year has begun. A recent storm in Glass's fleet in port materially helped the baffled the best efforts, and most capable Cuba occasioned, no damage to the business of the Moana Hotel Co. just management has been totally unable to cane fields while on the contrary, the bring profitable returns from the land abundant rains which fell proved quite and these plantations have finally been beneficial and the prospects are favorabandoned. Again certain plantations, able for some increase over last year's was denied and evidence for defendant previously unprofitable, have with either change of variety of cane or with change of management and methods become profitable, and in some cases have become profitable to a degree almost inof the estate of Elizabeth Barnes May- credible. The point I wish to make is nard, late of Brighton, England, has simply that no one single locality or one single class or community of farm-He received \$8612 and ers can by either success or failure, prove or disprove that our Islands as a whole are not open to profitable farming, or "minor industries," Mr. Atherton seems to have stayed pretty much at European beet crop was announced home when he was lately in Kula, for are shown in remittances to the heirs if he had but carried his investigation in England and expenses of administra- a few miles further this way into the Kaupakalua district, he would have found a prosperous community of con-tented Portuguese small farmers, whose homes, whose faces, and whose clothes show their prosperity without any need of questioning. This community is growing every year, perhaps some of the Kula farmers have moved down, and I hope so for I think the advantages in this district are certainly better than those the average American farmer can secure.

Mr. Atherton says that a pineapple factory has been set up at Haiku and compliments the company on turning out "fine article," but goes on to say that "how much profit there will be in merely the raising of pineapples by the small farmer remains to be proved." In this this port and 25s to 26s 3d orders from I take issue with the Banker, for pineapple growing on the Islands is long past the experimental stage, in fact it is about proved that the Hawaiian Islands produce the finest and largest pines in the world, and there is not one single "pest" of all the many that frighten the timid, that has yet appeared, in any degree to seriously affect the pineapple crop. The small farmers about here have already for years been raising pines profitably, but now with a factory close at hand which will gladly take all their surplus at good and profitable prices I consi der that at least this one industry in this district is certainly a very profitable one to 10 1-4c, for the small farmer. But pineapples are not the only successful crop besides sugar cane that will grow here; there is much else and it is being demonstrated slowly but surely here and there by able and capable agricultural men in the Islands of which there is a small mipority, and with encouragement and fastering these industries will grow and expand as surely as the sugar industry has grown and expanded.

Yours Very Truly, H. A. BALDWIN.

United Kingdom, estimated Oct, 15th, 68,000 tons against 114,064 tons-corresponding period previous campaign. Total stocks in all the principal countries, by cable Oct. 20th, at latest uneven dates, 798,605 tons against 1,237,257 tons; decrease from last year 438,652 tons.

Eastern and Foreign Markets.-A quiet, firm market for raws has been maintained throughout the period under review. The situation in some respects is peculiar, the offerings of cane sugars having been on a very moderate scale and even Demeraras ou not attract any particular attention. Cuba at this juncture exerts no active influence on the market, the crop there being virtually exhausted, while Javas have been practically absorbed, the only unsold near-by cargo of Javas being held for 11s 10 1-2d c. i. f. equal to 4 5-16c duty paid. Neither buyers or sellers evince any anxiety to consummate transactions and the present inactivity is likely to continue until the production. The new Louisiana crop is still green and only one-quarter of the factories are grinding, according to information recently received. New crop prospects are favorable and the out-turn is estimated at 340,000 tons.

Quotations in Europe have continued to decline to a slight extent throughout the present month, but a firmer tendency has been exhibited latterly. Mr. F. O. Licht's estimate of the present 15th inst. as 5,120,000 tons, which represents a decline of 732,000 tons from the results of the preceding crop. The markets stiffened upon the announcement of Mr. F. O. Licht's figures, but they subsequently became quieter and the situation abroad does not appear to present any features of

especial interest. A dull market for refined has ruled. the trade adopting a strictly hand-tomouth policy and an easier tone is in evidence, according to latest mail advices from New York under date of the 22nd inst.

Charters.-Transactions for grain since our last review have continued on a limited scale and rates are more or less nominal at 21s 3d orders from the North, and owing to the depression in grain freight, rates for lumber have again declined, last charter for Sydney being at 28s 9d January loading, and 31s 3d Melbourne, Adelaide or Port Pirie.

### MURE ARRESTS IN LIBEL CASE

Stephen Umauma and J. K. Nakookoo were arrested at 7:50 last night charged with violation of Chapter 32 of the Penal Laws, which is the chapter treating of libel. Both men are charged along with Chas. Notley of publishing in the Kuokoa Home Rula documents reflecting on /the character and integrity of Curtis P. Iaukea. Umauma and Nakookoo have been campaigning on the other side of the island and it was reported that they were to go to Walalua Sunday morning, so Deputy Sheriff Rawlins went down on the Haleiwa Limited yesterday morning with a warrant. The men, however, came to Honolulu on the early train which arrives about the time that the Limited leaves and though Rawlins was on the lookout he missed them.

An officer told them that Rawlins had said that he wanted them as witnesses in a case and they presented themselves at the station and were told that Rawlins had a warrant out for them. They returned last night and were properly arrested. They are now out on \$500 bonds each.

### SORE MUSCLES. Prominent athletes throughout the

country find that the best treatment for sore muscles after severe exercie or hard work of any kind, is a bot bath at bed time, which opens' the pores. This should immediately be followed with an application of Chamberlain's Pain Balm vigorously rubbed into the skip. This liniment removes all stiffness and soreness and has become a favorite rub down, as it acts promptly and keeps the muscles in excellent condition. For sale by all Dealers and Druggists. BY DANIEL LOGAN.

Although recorded transactions are few, there has been a strong stock market all the week. The San Francisco dip of H. C. & S. Co. cabled a week ago yesterday seems to have been only a momentary incident, as later quotations from there came up to the former standing of that stock. Sales of H. C. & S. Co. here at the middle and end of the week were at the highest mark previously attained. While the market has ruled strong without many or large deals, the reasons for this condition are not mysterious. Stocks paying dividends or promising to pay in the near future are difficult to obtain, while enterprises that are still problematic of early prosperity are not sought. As to the latter class of stocks, investors have had so long a wait for anything from many of the best stocks in the market that they are pardonably shy of whatever is still in

With 96 degree centrifugals at \$87 50 and some reason to expect a situation in the world's market which will give Hawaiian planters the difference of several dollars between the Trust quotation and the beet sugar parity, the prospects for our chief industry the coming year are exceedingly bright and justify a firm anticipation of greatly enhanced prosperity for Hawaii with the recuperation of many small fortunes that have until lately been staked upon a precarious issue. At the present New York market prices our planters are receiving from \$72.50 to \$75 net-taking the lowest and the highest estimates of the street-on the ton of sugar. There is more in it all for the investor, too, than there would have been had it not been for the period of depression passed through. Adversity taught our planters economy and the lesson, it is believed, will be enduring. Extravagances of management have been abated and economies without sacrifice of efficiency introduced. At the same time enterprises that were not in a bad way adopted the conservative policy of strengthening their positions against any eventuality, through the liquidation of bonded debts, the increase of productive capacities and the accumulation of re-

### THE STATISTICAL POSITION.

Along with cable advices of a rise in sugar at New York from 4.255c., where it stood for many weeks, to 4.375c. the mails of the week have brought encouraging forecasts of the coming year's campaign. Willett & Gray's Journal on Ahp Lumahai, etc, Kauai; 50 yrs of October 20 reports a decrease in the visible supply of Europe and America, as compared with the same time last year, of 438,652 tons. Then, in a table of Chu Hay et al to Dung Hay; BS; int the sugar crops of the world taking in countries hitherto ignored, the Journal in leasehold, bldgs, etc, Walkele, Ewa, gives an estimated decrease in the world's production of both cane and beet Oahu; \$30. B 265, p 254. Dated Nov sugar for 1904-5 from 1903-4 of 470,752 tons "Last season," the Journal comments, "the crops out-turned 480,669 tons more than the production of the John G de Silva and wf to Antonio Perreira, D, por Gr 3640, Kalihi, Hono-

"The indications are that the visible stocks and the new crops will be insufficient to meet the demands of consumption at the present ratio of increase, therefore it may be expected that consumption will be restricted within bounds, by the high prices which are bound to rule next year, otherwise there will not be a workable stock remaining at the end of the new campaign."

### TERRITORIAL FINANCES.

Auditor Fisher's report on the state of the Treasury for October has an encouraging aspect in most respects as compared with conditions the same month last year. The current receipts of \$111,670.23 are \$21,897.73 more than those of October, 1903. Collections of \$33,265 39 by the tax bureau are \$14,392.84 of increase. The land revenue of \$18,11992 is \$5,51576 better, and land sales, of which there were none the previous October, yielded \$17,801 64. There was a slight increase from the Honolulu water works and a slight decrease from Treasury collections. Expenditures out of current revenue were less by \$23,-460 89 than in October of last year, the amount the past month being \$203,242 62. Added to this was \$87,667 97 out of loan fund, making the total expenditures \$290,910.59, against \$226,703.51 for October, 1903 The current cash balance of \$30,838 33 is \$3 799 15 less than at the end of the corresponding month last year Unpaid warrants were \$222,075 91 in excess of the same time last year, being \$971,069.53 on October 31, 1904. Treasurer Campbell, however, began this month by calling in a fresh batch of registered warrants. The outstanding bonds of the Territory stood at \$2,160,000 the end of the month, a reduction of \$3,000 as compared with that day year. At the same time there is a loan fund balance of \$276,463.17 in the Treasury.

### GENERAL ITEMS.

Real estate transactions published during the week show a good many mortgages, some of them for considerable amounts-The Secretary of War has notified Lieut. Slattery, U.S. A., of the approval of the Waialae seacoast defense battery site and authorized him to purchase the selected area of 35 acres. This comprises ten blocks of the Waialae tract as laid out for residences, adjoining the Kaimuki tract, the blocks as shown on the registered map being Nos. 68, 69, 75, 81, 82, 88, 89, 95, 96 and 97 The site lies between the grounds of the Leahi Hospital and Diamond Head crater. When the Attorney General of the United States has passed upon the title, the purchase will be completed for the agreed price of \$31,600-Auctioneer W E Fisher sold a leasehold and a piece of land in fee, situated at Nuuanu and Pauahi streets, on Monday last, getting prices in keeping with the location and the times -Land Commissioner Pratt yesterday sold at auction the government land of Kaipapau, Oahu, containing ebout 282 acres and carrying water, hunting and cultivating privileges, to Jas. B Castle for the upset price of \$1,000. He also sold a lot of 3.91 acres at Puako, South Kohala, to John Hind for the upset price of \$196. This piece of land is the site of Hind's sugar mill and the owner was promised several years ago to have it put up at auction. It was sold under a supulation that, if any other person bought it, Mr. Hind was to be allowed to remove all the buildings and improvements thereupon within eighteen months—At Jas. F. Morgan's auction rooms yesterday, various one-minth and one-eighteenth interests in fifteen parcels of land on Oahu and Maus were sold under foreclosure of mortgage made by John H. Cummings and George Markham. Such mincemeat of real estate was not attractive to investors and the total proceeds were but \$414, while protests were entered against most of the sales-Next Saturday Mr Morgan will hold a sale of valuable ranch property in South Kona, Hawaii. The area is 5,000 acres and a herd of cattle goes with the ranch. All particulars may be obtained from Mr Morgan in the meantime.—The Tax Appeal Court has fixed the assessment of the Honolulu Rapid Transit & Land Co. at \$1,351,01595, where the company's amended figure of valuation was \$1,000,000 or about onethird more than its original return.-W E. Rowell has recorded a license from the Government and leases from Lilipoka'ani and the Bishop Estate giving him the privilege of running electric conductors over lands on the island of Kausi for the distribution of power and light.

Contracts are about being let on bids opened the past week for public works on the reland of Hawaii, out of the loan fund, to the amount of about \$25,000. The N. G. H armory is included.

## NEWS! BEAUTIFULSK Soft White Hands

**Luxuriant Hair** Produced by

ILLIONS OF WOMEN USE CUTICURA SOAP exclusively for preserving purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persussion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTI-CURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and hursery. Thus it combines, in One SOAP at One PRICE, the BEST skin and complexion seap, the BEST toilet and BEST baby scap in the world.

Mr. Draggs consulted his wife. "I have made up my mind," he said, "that we now speak the vernacular with sufsuitable elementary lessons in Biblical knowledge. I should, of course, prefer to secure a hearing from the chief himself; yet I fear to excite opposition or suspicion. But his consort, Mrs. Albola, has already a certain feeling of friendliness for us, and perhaps it would be wise to begin with her."

"I agree with you entirely, Wilfred," Mrs. Draggs said. "She is coming, too, to-day, to spend the morning. Perhaps while I will amuse the little boy. I can take him out upon the veranda, and you may make a school-room of the sitting-room here."

The plan was carried out at once. When Albola arrived and was settled Per stmr. Nilhau, Nov. 7, for Kauai cross-legged upon the matting, engaged ports Messrs. "and I will tell you of the first man and the first woman that lived."

With this preliminary, he made a rapid summary of the early portion of Genesis, passing lightly over the creation of the world, of the plant and animal life, and reaching as soon as possible the Garden LEAVES FOR COAST of Eden, the blessedness of which he sketched as brilliantly as his memory of "Paradise Lost" permitted.

Albola was delighted. "Beautiful garen," she said. "I love the beautiful garden! And the man A-dam and Eva his wife had it all to themselves! being in port less than thirty hours. Nothing to bother them, and all day to

very sad. Yes." Mr. Draggs repeated, "there was one forbidden tree. And though they had the whole garden for their pleasure, yet Adam and Eve disobeyed their Lord's command, and I'll tell you how it happened."

Albola listened with bated breath to a moving character sketch of the Satanic serpent and his wiles. Eve's beguitement followed, then the condemnation, the expulsion from Paradise, and the entailed curse on mankind. Mr. Draggs told the story with dramatic way having her bottom cleaned. "But only so far do they agree, and so I have come to hear the truth from my white friends. Now here is where they take different roads. Albola my wife says that the great lord who gave the command and the punishment was good and kind and just, and that the woman who after being kindly treated, disobeyed, was sinful and wrong, and deserved her punishment. But my son says that is all wrong. He says that the chief who gave the command was a wicked chief, that the poor woman did only a small wrong, and that the punishment was cruel and wicked."

"Ah!" thought the missionary. "Now is my opportunity!" and stepping forward he opened the gate, smiled, and invited the chief to enter. Leaving his spear outside, the chief entered, and sat upon the edge of the veranda where Mrs. Draggs in a rocking-chair of native manufacture, was busy over

"But these," said Mr. Draggs, "are entirely different. One is a made-up story; the other is truth from our good

book." "And which is the truth?"

Mr. Draggs gave a hastily corrected version of the Garden of Eden episode. The chief lent his respectful attention, and then turned expectantly to Mrs. Draggs. With a sinking at her heart. Mrs. Draggs gave the salient facts of the Bluebeard scandal:

"Now," said the chief, "I understand all clearly, and I see now easily the two stories went into one, as I heard them in my two ears. But yet I can not see why you, my white brother, make the lord of the garden a good, just, and kind chief; and why you, my white sister, declare the lord of the castle a wicked, bloodthirsty wretch. Both gave a happy home; both gave all freedom except in one little command; both were disobeyed; both inficted punishment. Your Bluebeard tried only to chop off the woman's head; but the Great Spirit punished not only the man and the woman, but laid a curse upon their children forever. And you tell me one is all good, the other all bad. I am afraid that I shall not remember which is which."

For their lives, neither the missionary nor his wife could formulate an immediate reply.

"Farewell!" said the chief, and he was gone.

After the retiring form of the stalwart chieftain had disappeared from view, there was a long stlence upon the veranda of, the missionary's hut.

The Rev. Mr. Draggs mopped his said, "we shall never get over this. That benighted savage will cling to -isn't it terrible!"

"But can't we-wkip the Garden of Eden story?" Mrs. Draggs suggested after a pause.

"I don't see how, Without Adam's fall, there will be an awesome gap in the Old Testament theology, and-Mrs. Draggs, in a rocking-chair of na- Really, I don't see my way clear. I'm afraid our mission here is a foregone failure." And he was right. With the chier
